CD170:54-9. Last par. 54 is correct and might be a good lead. Reference is to travel orders. These used to be mimeographed. One of the interesting things might be whether or not the others were sought out. If the first par is correct, & then this is the only such school. Same lead, p. 2. Wonder why the interest in what barracks he stayed in? This could be a Ferrie lead, for Ferrie was also to Keesler with the CAP. Question: do these periods overlap? Or was the FBI trying to find out, with what they had and either didn't give WC or withheld. However, the emphasis on "Unclassified" for all parts of the course in 1963 is at best deceptive, for when LHO went there, some of these courses undoubtedly were classified. Donovan testified, for example, to the high security on height-seeking radar, as of LHO's time with him. It was then a very big secret. This phoney emphasis sponsors wonder about the purity of FBI motive, especially because the work was of high classification.
